

Information Security Policy

ORDULU TECHNOLOGY INC. To implement and continuously improve the Information Security Management System;

To ensure the balance of integrity, confidentiality and accessibility, which are the three basic members of information security, in all our activities and to protect these elements in all information assets,

To meet all legal requirements and other obligations regarding Information Security,

To create information security awareness in our personnel by taking Information Security trainings regularly,

Limiting exposure to risks arising from loss, corruption or misuse of information assets, ensuring compliance with laws and regulations,

To carry out studies within the scope of the Business Continuity Management System and to provide uninterrupted service,

We have adopted and committed to our Information Security Policy.
